

Cessna Citation XLS

The world's most popular business jet offers just about everything you could ask for. Its internal climate system ensures you are welcomed to a warm cabin in the winter and a cooling oasis during a hot summer day.

Since it was delivered from the factory in 2008, it has been a pleasure for us to operate this magnificent aircraft. Thanks to its refined handling qualities it has taken us to new places, such as short Alp runways and the popular London City Airport.

The comfortable, spacious cabin and its features give you the opportunity to fully enjoy the ride. Watch a movie - there are two separate DVD systems - use the satellite phone, or plug your computer into one of the 220V outlets. We'll stow your skis and any size luggage in the roomy baggage compartment.
